

# WageIndicator

## CANADA GIG ECONOMY OVERVIEW 2024

Canadian organisations plan to increase hiring and rely on freelancers in the first half of 2024.

## Workers & their rights

### DID YOU KNOW?

In 2022, Ontario reclassified gig workers, granting them rights like:

- a **minimum wage**,
- **tip retention**,
- **pay and job details**,
- **termination notice**,
- **local issue resolution**,
- and **protection** from retaliation for asserting their rights.

Uber drivers in Toronto (2023) earn an average of \$7.90 per hour, well below Ontario's minimum wage of \$15.50.
